Last Spring Freeze March 8, First Fall Freeze November 5. - Growing Season 241 Days

*More than 10 days missing due to ice in the pan.

Remarks: December rainfall was greatest of record for any month since 1915. Record high wind total for December. Solar Radiation annual average was the lowest since 1975. Temperature records were equaled or exceeded on eight days during the year. April was the coldest in the 52 year record. The annual column includes totals for growing degree days, precipitation, evaporation and wind at the evaporation pan. Otherwise, annual averages are given.
